There were no apologies received from Cllr Thornham

2 **Declarations of Interest**
There were no declarations of interest

3 **National Grid - North Humber to High Marnham grid upgrade project - Stage one consultation summary**
(1)The meeting was opened with a overview of the scheme and provided a up to date summery of the current process, as per attachment A
(2)Various questions were asked by members of public, raising particular attention to the concerns relating to the possibility of Off-shore infrastructure, underground infrastructure, Usage of existing Tunnels for cable installations, Impact on Nature, and Impact on property prices. It was noted that the Government had a national policy which sets out the guidelines for funding, underground cables not being within policy due to the excessive costs for installation & maintenance, although all avenues for installations and routes are still being assessed with results being published identifying the desired path no later than Autumn 2024. It was noted community Grant Schemes will be available and properties and land being impacted will be compensated. Landowners and property owners will be contacted by National Grid accordingly.
