WINTER DRIVING

Before you set off...

Make sure you can see clearly through all your windows.

Make sure your tyres are correctly inflated and have plenty of tread.

Never leave your vehicle unattended whilst de-frosting.

Check your vehicle is in good driving condition.

Remove any snow that could fall into the path of other road users.

Pack your car with a hot flask, food and a road map

Check the weather and adapt your driving if the weather turns.

Are you fit to drive?
Have you slept well?
Are you on any medication?
